Intraday Commentary from Jim Bianco

*ADP US SEPT. PRIVATE EMPLOYMENT FALLS 32,000; EST. +51K

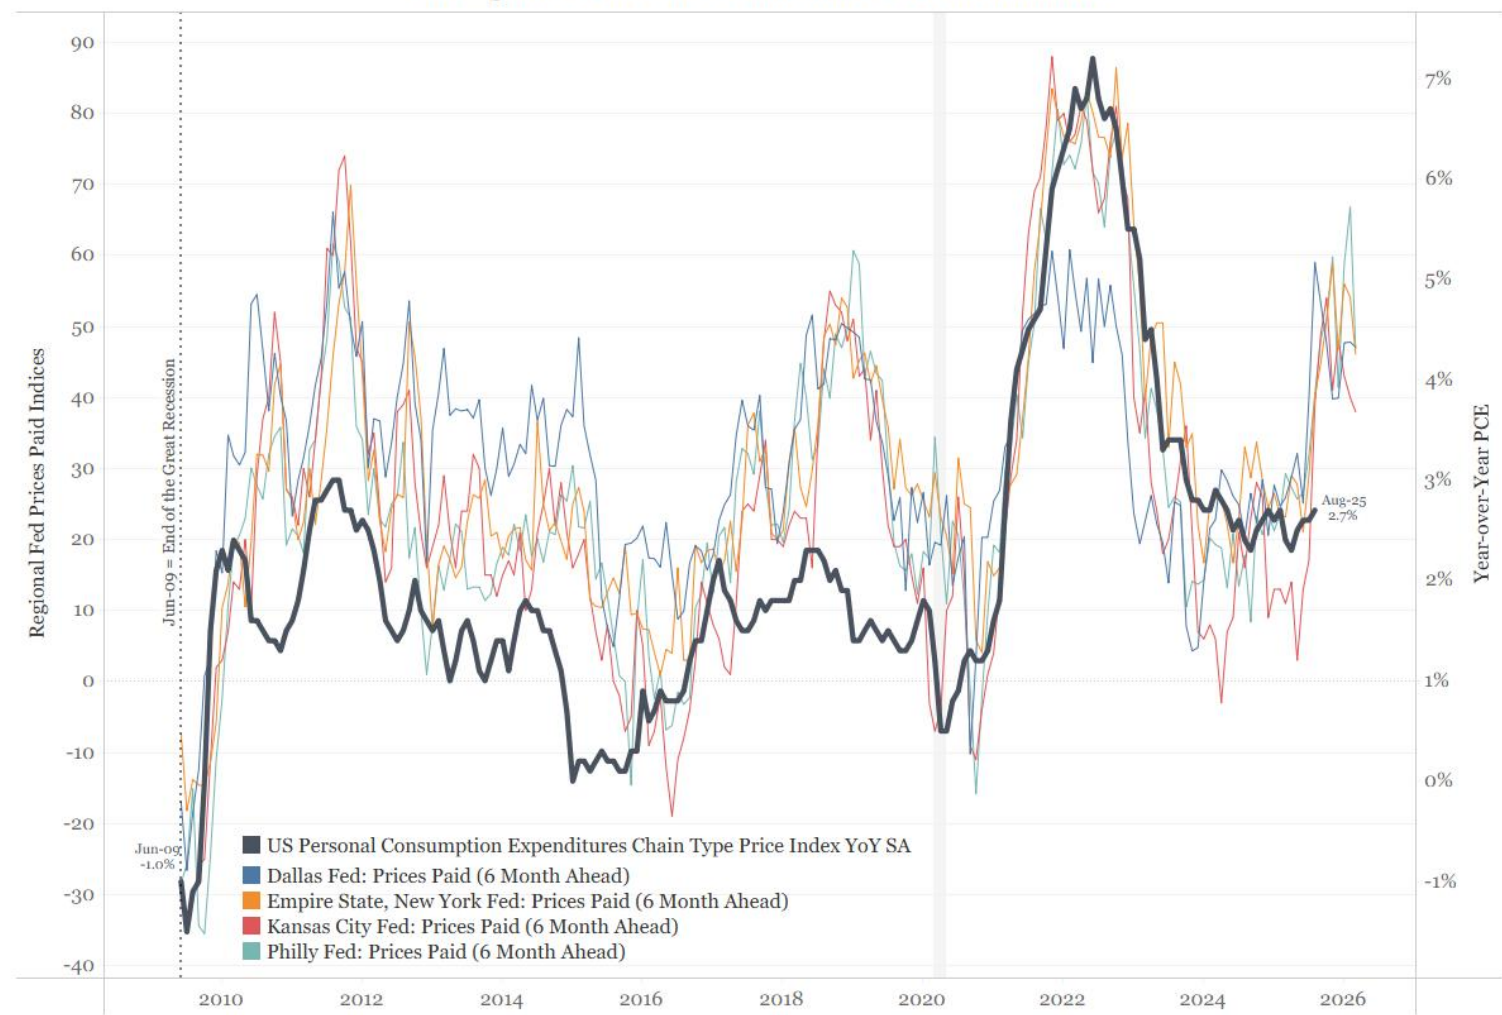

Last month was +54k (revised down from +57k). Let me remind everyone this series has a poor record in predicting the next payroll report.

Interestingly, the bond market typically does NOT react to this report. It is today. Maybe because this is the employment report of the week, expecting no payroll report on Friday. That does not mean it is correct.
